# ChatGPT – AI Visibility Query Performance ## Aggregated Report for Pinder Plotkin LLC ### Executive Summary & Aggregated Analysis Pinder Plotkin LLC achieved an average AI visibility score of 16.00 across five analyzed queries, reflecting a significant disparity between one high-performing result and four complete absences. The firm secured a strong presence in only one query—"lawyers for victims of DUI head-on collisions in Baltimore area"—where it earned a visibility score of 80 and was prominently listed as the second brand mentioned. This performance demonstrates that when the brand is semantically aligned with the query's intent, it can compete effectively against top-tier firms. However, in the remaining four queries, Pinder Plotkin LLC was entirely omitted from AI-generated recommendations, resulting in a visibility score of 0 for each. In terms of brand recognition, Pinder Plotkin LLC was identified as a primary entity only in the DUI head-on collision query, where it appeared under the variation "Pinder Plotkin Legal Team." In all other queries, the brand was absent from the AI's output, indicating a lack of semantic alignment with the specific service-related markers used by competitors. These included terms such as "workers' compensation for correctional officers," "denied insurance claims for EMTs," "hospital negligence," and "union worker representation." Competitors that ranked highly consistently embedded these semantic triggers into their digital presence, allowing AI systems to associate them with niche legal expertise. Competitor analysis reveals several recurring firms across multiple queries. Shultz Legal, Hyatt & Goldbloom, and Foran & Foran, P.A. appeared frequently and consistently ranked highly. These competitors are not generalists; rather, they are niche specialists who dominate their respective verticals by aligning their brand messaging with high-intent legal subcategories. For example, Shultz Legal is repeatedly associated with union workers and first responders, while Foran & Foran is linked to denied claims and hospital malpractice. Hyatt & Goldbloom leverages high review volume and strong local authority to maintain visibility. The data indicates that top-performing competitors succeed by embedding entity-specific language into their content, such as "public safety workers," "hospital negligence," "denied workers' comp claims," and "head-on DUI collisions." These semantic markers are consistently used by AI to determine relevance and authority. The absence of such markers in Pinder Plotkin LLC's digital footprint across four of five queries directly correlates with its lack of visibility in those areas. ### Query Performance Summary <table><tr><th>Query</th><th>AI Visibility Score</th><th>Top Brand</th></tr><tr><td>workers compensation lawyers in Baltimore specializing in claims for correctional officers and police</td><td>0</td><td>Alperstein & Diener</td></tr><tr><td>legal representation for injured firefighters and EMTs in Maryland dealing with denied insurance claims</td><td>0</td><td>Foran & Foran, P.A.</td></tr><tr><td>lawyers for victims of DUI head-on collisions in Baltimore area</td><td>80</td><td>The Bishop Law Group</td></tr><tr><td>medical malpractice attorneys in Laurel MD for hospital negligence</td><td>0</td><td>Foran & Foran, P.A.</td></tr><tr><td>best workers comp attorney for union workers and first responders in Baltimore</td><td>0</td><td>Shultz Legal</td></tr></table> ### Your Brand AI Landscape (Total Mentions) * **Pinder Plotkin LLC** – 1 total mention(s) * Hyatt & Goldbloom – 3 total mention(s) * Foran & Foran, P.A. – 3 total mention(s) * Shultz Legal – 2 total mention(s) * Alpert Schreyer Injury Accident Lawyers – 1 total mention(s) * Kenneth G.
